

# GIS SERVICES

**ENERGY, RESOURCES  
AND INFRASTRUCTURE  
SPECIALISTS**

# SERVICES SUMMARY

RLMS employs experienced GIS personnel who have considerable knowledge and experience in the processes involved during the evaluation, planning, procurement, construction and post-construction phases of various development projects.

RLMS offers customised spatial analysis and mapping solutions to solve any industry or business mapping requirements. With expansive databases and specialised desktop solutions RLMS is experienced in providing the most economical and practicable solution to any linear infrastructure routes or site based activities.

RLMS utilises ESRI's ArcGIS suite of products. The integration of an Enterprise Document and Property Management Systems with the Enterprise GIS provides the ability to spatially enable project information.

## GIS and mapping products include:

- Corridor Selection Mapping
- Tenement Mapping
- Alignment Sheets
- Thematic Mapping
- Environmental and Regulatory Constraint Mapping
- Native Title Mapping
- Asset Mapping
- Oil & Gas Information
- Minerals Information
- Energy Infrastructure
- Telecommunications Infrastructure
- GPS Field Collation
- Information Displays
